Deeper structure	6

Text and navigation

Formatting examples

Plain text with **bold emphasis**, *italic emphasis*
and bold italic emphasis.

Accented text: Réinitialiser le réseau. Café déjà vu.

Detailed check

A third level heading keeps its hierarchy.

Lists and links

- [Open the import guide](#)
- Check the destination workspace
- Keep the original file unchanged
- Review the imported headings
- Verify every list item separately
- Preserve drawn circle bullets
- **Keep bold text inside a list**
- Confirm the final bullet survives

1. Choose the source file
2. Start the import task
3. Open the completed page

Open the import guide

Inline link: [Read the reference](#) before continuing.

[Back to contents](#)

Tables and code

Project	Count	Status
Atlas	3	Ready
Boreal	5	Review
Cedar	8	Done

Table 1 Project readiness

Code example

```
// keep the next statement on a new line
let ready = true;
println!("ready");
```

Only mark a page ready after its content is persisted.

Table and code checks are complete.

Figures and final checks

Figure 1 Source to conversion to imported page

The embedded image contains three coloured stages and two arrows.

Left column first paragraph.
Reading order starts here.
The source remains available.
Every word should survive.
Finish this column first.

Right column second paragraph.
Reading order continues here.
Compare the resulting blocks.
Check their order carefully.
Reading order finishes here.

Merged readiness summary		
Area	Status	Owner
Navigation	Verified	Mira

Table 2 Merged summary

Typography and layout

Inline style samples

Underline sample stays readable.

Highlight sample stays readable.

Coloured sample stays readable.

~~Double strike sample~~ stays readable.

Inline code sample: `import_ready = true`

Subscript example: H₂O

Superscript example: x²

Paragraph alignment

Centered paragraph sample.

Right aligned paragraph sample.

Justified paragraphs keep their words even when the imported document uses a different line width.

Compare text separately from decoration. Colour, highlight, underline, script position and alignment can flatten on import.

Deeper structure

Nested list examples

- Release review
 - Review formatting
 - Inspect the deepest item
- Approve the document

Item	Description	Owner
Delta	First line Second line	<i>Mira</i>
Echo	Bold table detail	Noah

Table 3 Rich cell content

Level three sample

Level four sample

Level five sample

Level six sample

Final sentinel: every page was imported.
